EXPERIENCE

AOL

Software Engineer | New York City, NY & San Francisco, CA
July 2015 - Present

After Ashe Avenue was acquired by AOL, my colleagues and I were integrated into the AOL Core team, specifically on AOL.com. I handle front-end web engineering in Rails, Ruby, Twig, PHP, CSS, Sass and Javascript/jQuery.

ASHE AVENUE

Web Developer | Brooklyn, NY
October 2014 - July 2015

I was part of a small team of developers that paired with design agencies to make awesome web experiences. I handled front-end development in Drupal, Rails and Rack. This company was later acquired by AOL.

NYC DEVSHOP

Designer/Developer | New York City, NY
June 2014 - September 2014

Worked in a fast-paced environment and worked on a variety of different websites. I made designs in Photoshop and implemented them in a Ruby on Rails stack.

CARESTREAM HEALTH

User Interface Designer | Rochester, NY
October 2013 - March 2014

Created a way to organize the stylesheets in the web-based next generation of Carestream's x-ray interfaces using the SMACSS ideology combined with LESS CSS.
