Work Experience

Coursera

Senior Software Engineer

September 2018 - Present in the Bay Area, California (Remote)

I have been a part of multiple growth-focused teams at Coursera, including the Acquisition team—in charge of adding more learners to our platform, maintaining our homepage and SEO—and most recently the Degrees Conversion team, in charge of maintaining our degrees' description pages, increasing interest in our degree programs, and adding more degree learners to Coursera.

We use our React front-end stack and an experiment-based, metrics-driven approach to ensure our Coursera learners have the best possible experience.

AOL / Oath

Software Engineer

July 2015 - August 2018 in New York City & San Francisco

After being acquired by AOL I became one of the core engineers on AOL.com. I handled front-end web engineering in Rails, Ruby, Twig, PHP, CSS, Sass and JavaScript, and worked across the website on several different pages, including the frontpage and more. AOL was later acquired by Verizon and merged with Yahoo to become Oath, where I continued that work and moved to the west coast.

Ashe Avenue

Web Developer

October 2014 - July 2015 in New York City

I was part of a small but driven team of web developers that paired with design agencies to make awesome web experiences. I handled front-end development in Drupal, Rails and Rack. I worked on many different small projects, including Tumblr themes, creating brand new websites from scratch, and maintaining existing web pages. After partnering and doing good work for them, this company was later acquired by AOL.

Skills

11 years of experience in Front-End Web Software Engineering, UI/UX Design, Agile Methodology

Technology

Languages

HTML, CSS, JavaScript, SQL

Libraries/Frameworks

React, Webpack, NodeJS, React Testing Library, Jest, Puppeteer

Education

BFA in New Media Design

Rochester Institute of Technology
Class of 2013

Leadership

Degrees Conversion Interim Tech Lead

While on the Degrees Conversion team at Coursera, I was the Tech Lead for my team; in charge of supporting my other team members, reviewing tech docs, and supporting both my manager and other teammates.

Queersera, ERG Lead

As the Queersera Chair at Coursera, in charge of our LGBTQ+ Employee Resource Group, I organized and led several educational events and employee-led initiatives related to queer history, and helped give insight into how gender should be treated in our internal systems.

Prism, ERG Lead

I led a fantastic pride month highlighting nonprofit organizations in SF and helped the SF office march in the SF Pride Parade in 2018.
